### 'WHEN HIGH WELFARE BREEDS HIGH YIELDS'

11am | F Barton & Sons. Park Farm, Samlesbury BB2 7PY

'4OL average', 'grazing' and 'twice a day milking' are words not generally seen in the same sentence. With a zero-tolerance approach to disease and discomfort, incorporation of genomics and robotics, the Barton family talk us through daily management of their 100 cow, high yielding herd. Workshops by Oakhill Farm Vets on the latest in TB prevention and optimising heifer fertility.

### HAPPIER, HEALTHIER, WEALTHIER

10am - 2.30pm | Cross Keys Inn, Whitechapel PR3 2EP

Back by popular demand, this conference style discussion focusses on both farm *and* farmer resilience in the face of volatility. Speakers include Victoria Hicks - Somerset Kite Consultant - on ways to maximise production from each cow place, and Chris Clark - Independent Farm Consultant, Devon - on increasing dairy farm profitability (with local examples). Optimistic market insights, mental health, immense pie and chips...there really is something for everyone!
